

Frank Moretti is the director of policy and research for TRIP – a Washington, DC – based nonprofit organization that prepares reports on a variety of transportation issues, including traffic congestion, traffic safety, road and bridge conditions, transportation planning and air quality.

Mr. Moretti has been with TRIP since 1992 and recently served on the Blue Ribbon Panel of Transportation Experts, which was selected by the National Surface Transportation Policy and Revenue Study Commission to inform their deliberations over the future of the nation's surface transportation policy. The Commission was appointed by Congress in 2005 to review the nation's surface transportation needs and funding options and propose new long-term surface transportation policy for the U.S.

Mr. Moretti also served from 1998 to 2002 as the executive director of the Alliance for Clean Air and Transportation, a coalition of transportation and environmental groups formed by the US EPA and US DOT to help promote actions that could result in cleaner air and reduced traffic congestion.

Mr. Moretti also served in 2005 as chairman of Road Gang, which is an informal group of business, government and association professionals from the highway transportation industry in the Washington, DC area.

Mr. Moretti continues to participate in numerous transportation forums and panels hosted by organizations including the Transportation Research Board, the ENO Foundation and the Federal Highway Administration.

*Founded in 1971, TRIP®, of Washington, DC is a nonprofit organization that researches, evaluates and distributes economic and technical data on highway transportation issues. TRIP is sponsored by insurance companies, equipment manufacturers, distributors and suppliers; businesses involved in highway engineering, construction and finance; labor unions; and organizations concerned with an efficient and safe highway transportation network.*
